

A 3-Dimensional Approach for the Conservative Treatment of Scoliosis

Participants will gain a greater understanding of specific assessment and treatment techniques (applicable to both in-clinic and teletherapy settings), for adolescents and adults with curvature of the spine. Virtual lecture and lab will cover the following topics:

- *Triplanar asymmetry*
- *Factors determining risk of curve progression*
- *Spinal Precautions*
- *Curve pattern identification*
- *Safe performance of ADLs*
- *Assessments for both In-Clinic and Teletherapy*
- *Reviewing radiographs*
- *Bracing types and necessity*
- *Specific treatment techniques involving respiration*
